

# TUCK SHOP AT HOME

Setting up a tuck shop at home not only teaches the kids some valuable money lessons, it also curbs the nagging, and can be really fun too. Win, win win!

## The activity: Home Tuck Shop

- Write out a list of snacks
- Put prices next to each one
- Stick the shopping list of the fridge
- Give your kids a set amount a day to buy from the tuck shop (we suggest £1)
- Now, every time they want a snack, they can come to you, choose what they want, and pay for it, counting their real money.
- Alternatively, for multi sibling families, the children can take it in turns to be “shop keeper”

## Objective:

Money management, time management, expectations management
